DNA Sample Form

Instructions: Pull 25 to 30 mane or tail hairs from the horse to be registered, making sure to get the roots. Trim to about three inches long with the roots all at one end. Tape the hairs together at the middle, making sure to have all roots at one end. Place the bundle of hairs in an envelope with the horse's name on the envelope, then staple to the place indicated below. If you have more than one horse to be registered, you must use a separate form and envelope for each horse. Mail the completed Registration form, Pedigree form (if applicable), DNA Sample form, and fees to:
